PROFESSIONAL SUMMARY

MCA graduate with hands-on experience in **Web Development** using **HTML5, CSS3, JavaScript, React, and Python**. Experienced in developing responsive web interfaces, managing dynamic web content, integrating APIs, debugging applications, and validating functionality. Strong **problem-solving, communication, attention to detail, quality, and deadline management** skills with the ability to quickly learn new technologies and work effectively in team environments.

TECHNICAL SKILLS

Web Technologies: HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS
Web Development: Responsive Web Design, Web Content Management, Dynamic Content, UI Development, API Integration
Backend: Python, Flask, FastAPI, REST APIs
Databases: PostgreSQL, SQLite, SQL
Tools: Git, GitHub, VS Code, Postman, Jira, PyCharm
Core Skills: Debugging, Functional Validation, Problem Solving, Quality, Agile, Team Collaboration

EXPERIENCE

Software Developer Intern — **PrimeSophic Technologies** — **April 2026 - Aug 2026**

- Developed and maintained responsive web applications using **HTML5, CSS3, JavaScript, React, Flask, and PostgreSQL**.
- Built reusable UI components and managed dynamic web content while integrating **REST APIs** with frontend applications.
- Performed **functional validation and debugging** of web pages, forms, user workflows, and API responses, identifying and resolving application issues.
- Collaborated with team members using **Git** and Agile development practices while meeting project requirements and deadlines.

Web Development Intern — **Oasis Infobyte** — **Oct 2025 – Nov 2025**

- Developed responsive web interfaces using **HTML5, CSS3, and JavaScript** and independently completed assigned projects within deadlines.
- Debugged frontend issues, improved UI consistency, and applied structured coding practices to maintain reliable web applications.

SELECTED PROJECTS

AgroChain – Hybrid Web2/Web3 Agricultural Supply Chain Platform — Live Demo

- Developed a full-stack web platform using **React, Flask, PostgreSQL, and JavaScript**, with secure REST APIs, authentication, and role-based access.
- Built responsive dashboards, dynamic content workflows, QR-based product verification, and database-driven features for multiple user roles.

Meri Panchayat – Public Issue Reporting Portal — Live Demo

- Developed a responsive citizen-facing web portal using **HTML, CSS, JavaScript, Flask, and SQLite** for reporting and tracking public issues.
- Implemented structured content workflows, multilingual interfaces, forms, image uploads, dashboards, and database-driven issue management.

A^2 Kitchen – Smart Recipe Generator — Live Demo

- Developed a responsive web application using **HTML5, CSS3, JavaScript, and Spoonacular REST API** with dynamic content based on user-selected ingredients.
- Implemented API error handling, offline fallback content, localStorage persistence, community contributions, and data export functionality.

ResumeCraft – Privacy-First ATS Resume Builder — Live Demo

- Developed a browser-based web application with **live content preview, PDF parsing, dynamic sections, and client-side persistence**.
- Implemented reusable UI workflows and validated resume creation, editing, and PDF export functionality.

EDUCATION

Master of Computer Applications (MCA) — St. Agnes College (Autonomous) — CGPA: **8.33**
Bachelor of Computer Applications (BCA) — Dr. P.D.P. P.S.P Gov First Grade College — CGPA: **7.87**
